***Allowable Subject Matter***

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination fails to anticipate or fairly suggest the limitations of the claims, in such a manner that a rejection under 35 USC 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 11, 17 and 19.

Specifically regarding claims 1, 11, 17 and 19, Roest (20020167733) teaches the state of the art of an optical engine for a head-mounted display in fig. 1, including a first polarizer (14), a light source (2), an LCoS (6), a concave mirror (5) and a beam splitter (4).

But, Roest fails to explicitly teach the LCoS device reflecting reflective rays from the first polarizer to penetrate the first polarizer, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
